WORK EXPERIENCE

PHP Developer

Fun Plus Studio

05/2022 - 08/2022

Multan

Achievements/Tasks

- I primarily manage server-side logic, architecting and developing robust back-end systems using PHP and frameworks like Laravel.
- My responsibilities include designing and maintaining databases, integrating APIs, and optimizing application performance.
- I also manage the UI of the website to make it responsive and user friendly.

Bootstrap

PERSONAL PROJECTS

Touchwon (05/2022 - 07/2022)

- Touchwon is a multivendor gaming platform where user can sale and purchase coins that are used in games. Its building blockes are laravel and bootstrap frameworks.

Plantify (04/2023 - 05/2023)

- This is my final year project about any plant detail. For front-end I use React and for APIs I use laravel framework.

Hostel Mangement (09/2023 - 09/2023)

- It is my practice project in php. There is no framework used in this project. I complete it in 5 days.
